

Coverport

Coverport is a spiral braided line, made from high tenacity polyester yarns. Due to this unique type of braiding the core and cover are interlocked. Coverport has no slippage is abrasion resistant, has low stretch, maximum hold in halyard clutches and ideal on winches.

General information

Shock load	Reasonable
Handiness	Excellent
Durability	Excellent
Rot proof	Excellent
UV-resistance	Excellent
Resistance to acids	Excellent
Alkali resistance	Excellent
Abrasion resistance	Excellent
How to storage	Wet / dry
Buoyancy	Sinks
Melting point	Approx. 250°C

Diameter	Approx. breaking load in kilo	Unit	Article number white	Article number black	Article number green	Article number blue	Article number red
